

## **Week of ancient crafts and arts**

**from 11 - 17 July 2022**

Dear masters of old crafts and other arts

The Stone Age Park Dithmarschen in Albersdorf invites you to participate in the Week of Ancient Crafts and Arts.

Regardless of the Stone Age theme, we invite craftsmen and artists of all eras and types, e.g. Bronze casters, iron smiths, flint and rock tool masters, musical instrument makers from bone flutes to guitars, herb witches, storytellers, musicians of all kinds, basket weavers, tanners, leather tailors, wood carvers, fishermen, hunters, bakers, bookbinders, theater people, dancers, jugglers, bow makers, basket weavers, weavers, wood craftsmen, bone masters, fire masters, black powder shooters, wilderness educators, knife makers, weapons people, boat builders, potters, botanists, cooking artists, survival and bushcraft trainers, stone age artisans and painters, etc.

But also lectures or demonstrations on special topics such as hunting, birdwatchers, social interaction, tracking, prehistoric fishing, natural gardening, forest gardening, eco-communities and whoever else comes our way.

The various experts should of course be allowed to get to know each other and talk shop!

You are welcome to give demonstrations and courses and, if you wish, to charge for them. Some of you live from their craft and therefore have to earn. We, the Stone Age Park will not charge you any fees. You may work there the whole week, or just one day, etc. as it suits you.

We have a large open-air museum and a series of reconstructed Stone Age houses, a beautiful site with great scenery for your crafts and arts. The Stone Age Park would provide the space, water and firewood. We can't pay you anything, but you may collect admission, fees or donations from the public. How you do it is up to you. Please only coordinate with me beforehand.

For courses, you may also accept registrations in advance or during the action week. To market courses etc. for you, we would announce them on our website and social media. Interested participants can then register directly with you. Of course, you can also market the courses and other events yourself without any restrictions.

If you are interested, please contact me as soon as possible. Deadline is the 31st of March 2022. But who comes first ..... we have plenty space, but it might become limited if you are late!

If several people with the same craft sign up, I will connect you with each other so you can arrange among yourselves.

If it works out well, this could become an annual attraction.

Horrido
